You shall not pass: 934 Security Forces Squadron pop security barrier to stop gate runner

By Chris Farley

934th Airlift Wing Public Affairs Office

MINNEAPOLIS-ST. PAUL AIR RESERVE STATION, Minn. -- On a cold minus two January day last year, a silver 2014 Mercedes hastily turned from 34th Avenue South onto Military Highway and drove up to the 934th Airlift Wing's front gate.

The car was traveling faster than the posted ten miles-per-hour sign.

The 934th Security Forces Squadron defenders at the main gate observed the driver's swift approach and then watched the car's front-end bounce after striking the speed bump faster than recommended.

Staff Sgt. Joel Bakke, 934 SFS installation patrolman, was working outside the main gate guard shack and noticed the driver was hesitant to pull forward to the main gate. Both Bakke and Tech Sgt. Larson, 934 SFS assistant flight sergeant, who was inside the guard shack, were suspicious of the driver's behavior before he stopped.

"You could tell this guy didn't work here," said Larson.

"I asked him where he was heading," said Bakke. Bakke and Larson noticed the driver showed signs of intoxication. The driver slurred and mumbled his response. Furthermore, they observed the driver had bloodshot and watery eyes.

"At this point, I was going to take it as a DUI [driving under the influence], said Bakke. "I told him to put his vehicle in park and he looked like he was changing his vehicle gear to park and then he just looked up and he went, and that was it. There was no second thought and he drove away."

Who let the dog out: 934 ASTS Airman trains therapy dog for wing

By Senior Airman Colten Tessness
934th Airlift Wing Public Affairs Office

MINNEAPOLIS-ST. PAUL AIR RESERVE STATION, Minn. -- Everyone deserves emotional support outlets they can turn to in times of need. Some people might turn to a relative or a friend, while others may seek out a mentor.

The members of the 934th Airlift Wing have several of these resources they can use if they need assistance. One of those resources is Diesel, the 934th Aeromedical Staging Squadron therapeutic dog, trained by his handler, Staff Sgt. Scott Kosmatka, a 934th ASTS medical records technician.

For trainees, first taste of basic doesn't disappoint

By Senior Airman Victoriya Tarakanova
934th Airlift Wing Public Affairs Office

MINNEAPOLIS-ST. PAUL AIR RESERVE STATION, Minn. -- Nine 934th Airlift Wing trainees assigned to the 934th Development & Training Flight had their first meals ready-to-eat to prepare for basic training on March 5, 2023.

The MRE is a self-contained individual United States military ration and it is intended for use by American service members in combat or field conditions where food is unavailable.

BODY COMPOSITION ASSESSMENTS begin 1 April 2023

Are you ready for the new Body Composition Assessment (BCA)? Do you know the requirements associated with the new BCA? Here are a few FAQs from Eric Neal to get you up to speed:

Q1 – When will members be due for their Body Composition Assessment (BCA)?

A1 – Members will be required to take BCA during their birth month. If preferred, members are authorized to take a BCA one month in advance or one month late with Commander's authorization, but they will not be current until BCA completion regardless of Commander approval.

Q2 – Can members take their Physical Fitness Assessment (PFA) and BCA during the same month?

A2 – Yes. Members can take both PFA and BCA in the same month, however, they cannot be directed by the Commander to do so. This policy is in place for safety reasons to prevent members from trying to perform at their highest standards when taking a PFA, without being well-fueled or well-hydrated while trying to meet standards for the BCA.

Q3 – What is the difference between BCA and the old PFA abdominal circumference requirement besides being decoupled from the PFA?

A3 – The BCA is measured in a different location and scored based on a ratio of the recorded measurement and the members height. The location of the BCA measurement is the mid-point between the lowest rib, and the iliac crest, compared to the previous AC measurement that was taken with the bottom part of the tape measure contacting the top portion of the iliac crest aligned with the arm pit. This measurement divided by the previous height taken at PFA will be the recorded ratio. Anyone with a ratio of 0.55 or greater will be considered high risk.

Q4 – What happens when a person is measured to be at high risk?

A4 – Members who receive a high-risk ratio will have to be seen by medical for a review if they are high risk, and at a minimum review the HeRO slides (more information to follow later). In addition to this I am offering much more to help the members aside from reviewing slides, seeing how majority of what I am offering within the Health Promotion Program are weight management courses.

Q5 – What is your opinion on the new program?

A5 – I believe the PFA is a strong indicator indirectly of weight management as it is a weight-based assessment of components, but it is required by Department of Defense to provide a body composition component or assessment. That being said, I agree the Air Force is doing the right thing separating the BCA from the PFA for safety reasons, and although I don't like how it takes an advantage away from short statured members compared to the previous AC, it is much fairer to tall members and puts both males and females at the same standard removing a 4 inch disadvantage previously placed on females.

A message from the 934 ASTS regarding medical profile

Due to fitness testing being well under way, we have been contacted by a lot of members needing profiles and wanted to ensure everyone is aware of our policy and the proper procedures in order to obtain a profile.

If a member is in need of a profile, they must be seen by a civilian provider and request to have the medical records from that appt, and all subsequent appts, be faxed to the 934 ASTS. The member may email or hand carry the records to the ASTS as well. We **CANNOT ACCEPT "To Whom It May Concern" letters or after visit summaries.** Every clinic has a release of information a member can fill out to request to have those records sent to us or the member can contact the ASTS and we can give them our release of information to complete and we will fax to their clinic for them.

If a member is in need of fitness restrictions due to an injury or illness and has a fitness test approaching the ASTS **MUST** receive the medical records **by the Monday prior to the UTA** in order to allow our staff time to review the record and put a profile in place. If we do not receive the records by that day then the member must speak to their Commander to receive his/hers acknowledgment they will be going 30 days past due in order to heal or allow time for the ASTS to receive the appropriate records to complete the profile.

Also as a reminder for all members, if you receive care with a civilian provider then you must request to have the records sent to the ASTS as they are required to ensure your medical readiness.

ASTS Fax # 612-713-1149

Military Family Summer
Family Camp

July 29-Aug 1, 2023

Saturday, 5pm—Tuesday 11am

Operation
Welcome Home

Spend 4 days with us this summer! Serving military members and families, all branches, Ironwood's Operation Welcome Home program is a series of retreats for active military, veterans and their families. Retreats are provided free of charge, providing a place for the military community to come together, strengthen their faith, build relationships and support each other.

Our summer camp includes faith-building lessons and chapels, fun activities like zip line, archery, shooting sports, laser tag, crafts, and swimming, and great food while staying in a private hotel-style room in our beautiful Miracle Lodge. During final registration (not the initial waitlist signup-see below), you pay a \$50 deposit that is refunded after you attend. **Cost: A \$50 deposit to hold y our family's place will be paid on completion of registration. This is refunded after arrival or if cancellation occurs no later than 3 weeks prior to the event.**

Due to high demand for our military retreats, our registration process has changed. We are prioritizing first-timers over people who have attended a retreat before at Ironwood. When you go into to register, it will indicate that you will be put on the waiting list. We will have this phase of the registration open for up to two weeks. Once the waiting list fills up with enough people, we will then prioritize the list based on prior attendance and then invite people to do the full registration via a special link. You will then have a certain number of days to register before we give more people a chance. If there are more people than can attend, we will also prioritize the list to allow you to register for our fall retreat.

You can use the link below to get more information and to start the registration process.
